14-16 December 2015 | Republic of Vietnam, Hanoi

**Первая Российско-Вьетнамская промышленная выставка**

EXPO-RUSSIA VIETNAM 2015

и Российско-Вьетнамский бизнес-форум**«Перспективы развития экономического сотрудничества в условиях свободной торговли»**

14 - 16 декабря 2015 года в СРВ г. Ханой, 44B Ly Thuong Kiet Street, Выставочный Центр Melia — одна из самых значимых и перспективных выставочных площадок Вьетнама

Организатор: ОАО «Зарубеж-Экспо»

Выставка проводится

под патронатом: Торгово-Промышленной Палаты РФ

при поддержке: МИД РФ, Минэкономразвития, Минпромторга, других отраслевых ведомств России, а также Посольства России в Республике Вьетнам, Торгового представительства РФ в СРВ, ТПП Вьетнама, руководства СРВ, отраслевых министерств Вьетнама

Цели и задачи:

- Содействие дальнейшему развитию и укреплению торгово -экономических связей между Россией и Вьетнамом, диверсификации форм и направлений российско-вьетнамского экономического сотрудничества
- Продвижение российской экспортной высокотехнологичной продукции на рынок Вьетнама
- Расширение инвестиционного сотрудничества и представление наиболее перспективных инвестиционных проектов России на Выставке
- Стимулирование инновационной активности и взаимодействие научных институтов двух стран

Тематические направления:

- Энергетика: строительство, модернизация и реконструкция энергетических объектов, энергетическое машиностроение, комплектующие и запасные части к ним. Возобновляемые источники энергии. Энергосберегающее оборудование и технологии
- Строительная, дорожная и подъемная техника, техника для лесного хозяйства, предприятий топливно-энергетического комплекса, золотодобывающей, угольной, горнорудной отраслей промышленности, коммунального хозяйства
- Оборудование и технологии разведки, добычи и переработки полезных ископаемых
- Нефтегазовая промышленность
- Геология и разведка нефтяных и газовых месторождений
- Химия и нефтехимия: оборудование, технологии, агрохимические вещества, удобрения, пластмассы, резина
- Машиностроение. Технологии и оборудование
- Сельскохозяйственная техника, оборудование для переработки и хранения сельскохозяйственной продукции
- Легковой, грузовой и специальный транспорт; комплектующие, запчасти и аксессуары к ним
- Авиационная техника, аэронавигационное оборудование и системы управления воздушным движением
- Медицина: оборудование, инструменты, медицинская мебель и одежда. Фармацевтика. Биотехнологии
- Нанотехнологии, новые материалы
- Информационные технологии: технологии управления
- Товары народного потребления и др.
- Региональные инвестиционные и инновационные проекты

Triển lãm công nghiệp Nga-Việt lần I «EXPO-RUSSIA VIETNAM 2015» và Diễn đàn kinh doanh Nga-Việt «Triển vọng phát triển hợp tác kinh tế trong điều kiện thương mại tự do»

Ngày 14 - 16 tháng 12 năm 2015 tại CHXHCN Việt Nam, thành phố Hà Nội, số 44B Lý Thường Kiệt, Trung tâm Triển lãm Melia – Một trong những sân triển lãm sáng giá và triển vọng nhất của Việt Nam

Ban tổ chức: Công ty cổ phần mở «Zarubezh-Expo»

Triển lãm tiến hành

dưới sự bảo trợ của Phòng Công nghiệp-Thương mại LB Nga; với sự hỗ trợ của: Bộ Ngoại giao LB Nga, Bộ Phát triển Kinh tế, Bộ Công nghiệp-Thương mại, các cơ quan ban ngành khác của Nga; cũng như Đại sứ quán Nga tại Việt Nam, Đại diện Thương mại LB Nga tại Việt Nam, Phòng Công nghiệp-Thương mại Việt Nam, ban lãnh đạo nước CHXHCN Việt Nam, các bộ ngành hữu quan của Việt Nam

Mục đích và nhiệm vụ:

- Hiệp lực tiếp tục phát triển và tăng cường liên hệ kinh tế- thương mại giữa Nga và Việt Nam, đa dạng hóa hình thức và phương hướng hợp tác kinh tế Nga-Việt
- Thúc đẩy xuất khẩu các sản phẩm công nghệ cao của Nga tại thị trường Việt Nam
- Mở rộng hợp tác đầu tư và giới thiệu những dự án đầu tư triển vọng nhất của Nga tại Triển lãm
- Tiếp xung lực kích thích hoạt động đổi mới ứng nghiệm và tương tác giữa các cơ cấu khoa học của hai nước

Các hướng đề tài:

- Năng lượng: xây dựng, hiện đại hóa các chủ thể năng lượng, chế tạo máy điện, bộ phụ tùng và linh kiện máy. Các nguồn năng lượng tái sinh. Trang thiết bị và công nghệ tiết kiệm năng lượng
- Xây dựng, đường bộ và thiết bị nâng tải, kỹ thuật dành cho kinh tế lâm nghiệp, xi nghiệp của tổ hợp nhiên liệu-năng lượng, khai thác vàng, than, công nghiệp khai khoáng, dịch vụ công trình đô thị
- Trang thiết bị và công nghệ thăm dò, khai thác và chế biến khoáng sản
- Ngành công nghiệp dầu khí
- Địa chất học và thăm dò các mỏ dầu-khí đốt
- Hóa học và hóa dầu: thiết bị, công nghệ, hóa chất nông nghiệp, phân bón, nhựa, cao su
- Chế tạo máy. Công nghệ và trang thiết bị
- Máy móc nông nghiệp, thiết bị dành cho chế biến và bảo quản nông sản
- Xe hơi, xe tải và xe chuyên dụng; bộ phụ tùng, linh kiện phụ kiện liên quan
- Kỹ thuật hàng không, thiết bị dẫn đường và hệ thống kiểm soát không lưu
- Y tế: Thiết bị, dụng cụ, đồ nội thất và trang phục y tế. Dược phẩm. Công nghệ sinh học
- Công nghệ nano, các vật liệu mới
- Công nghệ thông tin: Quản lý công nghệ
- Hàng hóa dân dụng và những thứ khác.
- Các dự án đầu tư và đổi mới ứng nghiệm khu vực

**ПРИВЕТСТВИЕ ПРЕДСЕДАТЕЛЯ ОРГКОМИТЕТА «EXPO-RUSSIA VIETNAM 2015»,
ПРЕДСЕДАТЕЛЯ СОВЕТА ДИРЕКТОРОВ ОАО «ЗАРУБЕЖ-ЭКСПО»
ВАРТАНОВА ДАВИДА РОБЕРТОВИЧА**

Искренне приветствую участников и гостей выставки «Expo-Russia Vietnam 2015» и Ханойского Бизнес-форума.

В период подготовки оргкомитет с каждым днем убеждался в правильности своего решения распространить сферу деятельности именно на эту прекрасную страну Юго-Восточной Азии, тем более в юбилейный год установления дипломатических отношений. Исторические связи наших государств имеют многовековую традицию, ведь Вьетнам издавна считался «Парадным входом» в Азиатско-Тихоокеанский регион для деловых людей всего мира, в том числе для российских промышленников. Традиционно хорошие отношения между Россией и Вьетнамом всегда развивались успешно, и к настоящему времени достигли высшего уровня за последние десятилетия, что послужило мощным импульсом к реализации идеи проведения выставки «Expo-Russia Vietnam 2015» и Ханойского Бизнес-форума.

Можно констатировать, что осуществляемая ОАО «Зарубеж-Экспо» программа международных выставок сейчас активно используется в качестве востребованной площадки для налаживания связей бизнес-сообщества России с зарубежными партнерами. Столь эффективный метод продвижения продукции отечественных предприятий на внешний рынок и повышения имиджа российских производителей получает подтверждение и во Вьетнаме. Нас очень радует интерес к выставке со стороны предпринимателей, ведь свою продукцию презентуют в Ханое десятки предприятий из российских регионов. В ходе деловой программы немаловажное внимание уделено стратегическим совместным проектам, однако не в меньшей степени нас волнует деятельность предприятий малого и среднего бизнеса. В частности, на мероприятиях с участием глав администраций регионов России, будут проанализированы предложения по дальнейшему повышению взаимного товарооборота вследствие подписания «Соглашения о свободной торговле между Вьетнамом и странами ЕАЭС» с помощью новых схем двусторонних расчетов в национальных валютах.

Желаю участникам и гостям выставки «Expo-Russia Vietnam 2015» и Ханойского Бизнес-форума хорошего рабочего настроения, интересных плодотворных встреч и деловых переговоров, налаживания долгосрочных контактов с зарубежными коллегами.

CỦA TRƯỞNG BAN TỔ CHỨC «EXPO-RUSSIA VIETNAM 2015»
CHỦ TỊCH HỘI ĐỒNG QUẢN TRỊ CÔNG TY CỔ PHẦN MỞ «ZARUBEZH-EXPO»
VARTANOV DAVID ROBERTOVICH**

**Nhiệt liệt chào mừng các quý vị đại biểu và khách mời của Triển lãm
«Expo-Russia Vietnam 2015» và Diễn đàn Doanh nghiệp Hà Nội.**

Trong giai đoạn chuẩn bị cho hoạt động tầm cỡ hôm nay, qua mỗi ngày Ban Tổ chức chúng tôi càng thêm vững tin vào quyết định đúng đắn của mình là mở rộng phạm vi hoạt động chính tại đất nước tươi đẹp này của khu vực Đông Nam Á, hơn thế nữa, chính vào năm chúng ta kỷ niệm chẵn mốc thiết lập quan hệ ngoại giao. Lịch sử liên hệ của hai nước chúng ta có truyền thống lâu đời nhiều thế kỷ, bởi Việt Nam từ xa xưa đã được xem là cửa ngõ quan trọng dẫn vào khu vực châu Á-Thái Bình Dương dành cho mọi người làm kinh doanh khắp thế giới, trong đó có những nhà công nghiệp của nước Nga. Quan hệ truyền thống tốt đẹp giữa Nga và Việt Nam luôn phát triển thành công, thời điểm hiện nay đã vươn tới tầm cao nhất trong những thập kỷ qua, phát huy tác dụng xung lực mạnh mẽ thúc đẩy việc thực thi các ý tưởng tiến hành Triển lãm «Expo-Russia Vietnam 2015» và Diễn đàn Doanh nghiệp Hà Nội.

Có thể xác nhận rằng chương trình Triển lãm ở nước ngoài mà Công ty cổ phần mở «Zarubezh-Expo» đang tích cực thực thi hiện nay được khai thác như là một nền tảng rất hữu ích để thiết lập liên hệ của cộng đồng doanh nghiệp Nga với đối tác nước ngoài. Phương pháp hiệu quả như vậy trong việc thúc đẩy sản phẩm của các doanh nghiệp nội địa ra thị trường nước ngoài và nâng cao hình ảnh của nhà sản xuất Nga trên thế giới cũng được khẳng định cả ở Việt Nam. Chúng tôi rất vui mừng ghi nhận mối quan tâm từ phía các nhà kinh doanh dành cho Triển lãm, bởi sẽ có hàng chục doanh nghiệp từ các vùng của nước Nga rộng lớn mang sản phẩm của họ đến trưng bày giới thiệu tại Hà Nội. Trong chương trình kinh doanh, sự chú ý đáng kể được dành cho những dự án liên doanh chiến lược, tuy nhiên một mảng nội dung mà chúng tôi không kém phần quan tâm là hoạt động của các doanh nghiệp vừa và nhỏ. Cụ thể, tại các sự kiện với phần tham gia của lãnh đạo các khu vực hành chính của Nga, sẽ tiến hành phân tích đề xuất nhằm nâng cao hơn nữa kim ngạch trao đổi thương mại sau khi ký kết «Hiệp định về Thương mại tự do giữa Việt Nam và các nước thuộc EAEU», với sự hỗ trợ của những sơ đồ mới là thanh toán song phương bằng các đồng tiền quốc gia.

Tôi xin chúc các quý vị thành viên và khách mời của Triển lãm «Expo-Russia Vietnam 2015» và Diễn đàn Doanh nghiệp Hà Nội có tâm trạng làm việc thoải mái, có những cuộc hội ngộ giao lưu thú vị và đàm phán kinh doanh hiệu quả, thiết lập tiếp xúc lâu dài bền chặt với các đồng nghiệp nước bạn.

**ПРИВЕТСТВИЕ УЧАСТНИКАМ И ГОСТЯМ ПЕРВОЙ РОССИЙСКО-ВЬЕТНАМСКОЙ
ПРОМЫШЛЕННОЙ ВЫСТАВКИ «EXPO-RUSSIA VIETNAM 2015»
ПОСЛА РОССИЙСКОЙ ФЕДЕРАЦИИ ВО ВЬЕТНАМЕ
КОНСТАНТИНА ВАСИЛЬЕВИЧА ВНУКОВА**

Дорогие вьетнамские и российские друзья,

В последние годы благодаря постоянному вниманию высшего руководства России и Вьетнама отношения между нашими странами динамично развиваются по самому широкому спектру тем и направлений в духе всеобъемлющего стратегического партнерства. Открываются новые возможности и сферы взаимодействия. Знаковый шаг на этом пути – подписание в мае текущего года соглашения о свободной торговле между Евразийским экономическим союзом и Вьетнамом. Предприниматели двух стран наращивают производственную кооперацию, инвестиционное взаимодействие как во Вьетнаме, так и в России. Поддерживается интенсивный обмен в области науки, культуры и образования. Прочным фундаментом этого сотрудничества является проверенная временем и прошедшая через многие испытания дружба и глубокая взаимная симпатия между нашими народами.

Мы активно работаем над наращиванием двустороннего торгово-экономического сотрудничества, хотя следует признать, что имеющийся потенциал используется далеко не полностью. Именно поэтому открывающаяся в Ханое Первая промышленная выставка «EXPO RUSSIA-VIETNAM 2015» является весьма своевременной и востребованной. Не сомневаюсь, что подготовленные к ней стенды и презентации, прямой диалог между представителями деловых кругов, позволят вьетнамским и российским предпринимателям составить более полное представление о возможностях друг друга, выйти на взаимовыгодные формы кооперации.

Этому также будет способствовать широкий спектр участников выставки, включающий российские и вьетнамские компании, действующие на ключевых направлениях двусторонней экономической кооперации – в топливно-энергетическом комплексе, в области транспорта, машиностроения, медицины, сельского хозяйства. Отрадно видеть среди них и представителей малого и среднего бизнеса из регионов Российской Федерации.

Существенной практической отдачи ждем и от планируемой «на полях» мероприятия конференции «Сотрудничество в формировании зоны свободной торговли между участниками Евразийского экономического союза и Вьетнамом», а также встреч в формате «круглых столов» в ряде вьетнамских министерств и ведомств.

Пользуясь случаем, хотел бы от всей души поблагодарить российских организаторов и наших вьетнамских партнеров за большую работу по подготовке «EXPO RUSSIA-VIETNAM 2015», нацеленной на продвижение торгового и инвестиционного сотрудничества между нашими странами, представление экспортных возможностей отечественных предприятий на таком крупном перспективном рынке, как Вьетнам. Уверен, что она будет результативной и плодотворной. Об этом свидетельствует успешный опыт проведения подобных мероприятий в ряде стран: Армении, Белоруссии, Иордании, Казахстане, Сербии, ЮАР...

В заключение хотел бы подчеркнуть, что такие крупные выставки, безусловно, вносят весомый вклад в расширение взаимодействия между бизнес-кругами двух стран, способствуют наполнению конкретным содержанием российско-вьетнамского стратегического партнерства. Убежден, что включенные в ее программу мероприятия помогут наладить полезные деловые контакты, будут способствовать решению стоящих перед Россией и Вьетнамом задач по модернизации национальных экономик и повышению их эффективности.

От всей души желаю участникам выставки успешной работы, крепкого здоровья и благополучия.

**LỜI CHÀO MỪNG CỦA ĐẠI SỨ LIÊN BANG NGA TẠI VIỆT NAM K.V.VNUKOV
GỬI CÁC THÀNH VIÊN THAM GIA VÀ KHÁCH MỜI CỦA TRIỂN LÃM
CÔNG NGHIỆP NGA-VIỆT
LẦN THỨ NHẤT “EXPO-RUSSIA VIETNAM 2015”**

Thưa các Bạn Việt Nam và Nga thân mến,

Trong những năm gần đây nhờ sự quan tâm thường xuyên của ban lãnh đạo cấp cao nhất của Nga và Việt Nam, quan hệ giữa hai nước chúng ta đang phát triển một cách năng động theo tổ hợp rộng khắp các đề tài và hướng đi trên tinh thần quan hệ đối tác chiến lược toàn diện. Đang mở ra những cơ hội và lĩnh vực mới trong sự phối hợp hành động. Một bước đi mang tính cột mốc trên con đường này là việc ký kết trong tháng 5 năm nay Hiệp định thương mại tự do giữa Liên minh kinh tế Á-Âu và Việt Nam. Các nhà doanh nghiệp của hai nước đang gia tăng hợp tác về sản xuất, phối hợp hành động về đầu tư cả ở Việt Nam cũng như ở Nga. Đang duy trì sự trao đổi mạnh mẽ trong lĩnh vực khoa học, văn hóa và giáo dục. Nền móng vững chắc của sự hợp tác này là tình hữu nghị và tình cảm quý mến lẫn nhau sâu sắc giữa nhân dân hai nước chúng ta đã được kiểm nghiệm bằng thời gian và đã trải qua nhiều thử thách.

Chúng tôi đang tích cực hoạt động nhằm tăng cường hợp tác kinh tế-thương mại song phương, mặc dù cần phải công nhận rằng, tiềm năng hiện có được sử dụng rất ít. Chính bởi vì vậy mà Triển lãm công nghiệp lần thứ nhất “EXPO RUSSIA- VIETNAM 2015” là rất kịp thời và đáp ứng được nhu cầu. Tôi không nghi ngờ gì rằng, những gian hàng giới thiệu và trưng bày đã được chuẩn bị cho Triển lãm, việc đối thoại trực tiếp giữa đại diện các giới doanh nghiệp sẽ cho phép các nhà doanh nghiệp Việt Nam và Nga có được một khái niệm đầy đủ hơn về những khả năng của nhau để tiến đến những hình thức hợp tác cùng có lợi.

Điều này cũng được thúc đẩy bởi quy mô rộng khắp các thành viên tham gia Triển lãm, bao gồm cả các công ty Nga và Việt Nam đang hoạt động trên những hướng đi then chốt

trong hợp tác kinh tế song phương - trong tổ hợp nhiên liệu-năng lượng, trong lĩnh vực giao thông vận tải, chế tạo máy, y tế, nông nghiệp. Thật vui mừng nhìn thấy trong số đó có cả các vị đại diện của doanh nghiệp vừa và nhỏ từ các địa phương của Liên bang Nga.

Chúng tôi cũng đang mong đợi hiệu quả mang tính thực tiễn căn bản từ hoạt động “bên lề” của hội nghị được dự kiến tiến hành “Hợp tác trong việc thành lập khu vực thương mại tự do giữa các thành viên Liên minh kinh tế Á-Âu và Việt Nam”, và đồng thời của các cuộc gặp gỡ trong khuôn khổ các “hội nghị bàn tròn” tại một số bộ, ngành của Việt Nam.

Nhân dịp này, tôi muốn tận đáy lòng cảm ơn các nhà tổ chức của Nga và của các đối tác Việt Nam của chúng tôi đã thực hiện công tác chuẩn bị lớn lao cho “EXPO RUSSIA-VIETNAM 2015”, với mục đích thúc đẩy hợp tác thương mại và đầu tư giữa hai nước chúng ta, giới thiệu những khả năng xuất khẩu của các doanh nghiệp Nga vào một thị trường to lớn đầy triển vọng như Việt Nam. Tôi tin tưởng rằng, Triển lãm này sẽ thành công và đầy hiệu quả. Điều này được minh chứng bởi kinh nghiệm thành công trong việc tiến hành những hoạt động tương tự tại nhiều nước như: Armenia, Belorussia, Gioncdani, Kazakhstan, Serbia, Cộng hòa Nam Phi v.v...

Để kết thúc tôi muốn nhấn mạnh rằng, những triển lãm lớn như thế này, đương nhiên đem lại sự đóng góp quan trọng vào việc mở rộng sự phối hợp hành động giữa các giới doanh nghiệp của hai nước, tạo điều kiện làm phong phú thêm bằng nội dung cụ thể trong quan hệ đối tác chiến lược Nga-Việt. Tôi tin tưởng rằng, các hoạt động được đưa vào chương trình cuộc Triển lãm này sẽ hỗ trợ tạo lập quan hệ giao lưu tiếp xúc làm ăn bổ ích và sẽ thúc đẩy việc giải quyết những nhiệm vụ đang đứng trước Nga và Việt Nam nhằm hiện đại hóa hai nền kinh tế quốc gia và gia tăng tính hiệu quả của chúng.

Tôi xin chân thành chúc các thành viên tham gia Triển lãm hoạt động thành công, sức khỏe dồi dào và thành đạt.

**УЧАСТНИКАМ, ОРГАНИЗАТОРАМ
И ГОСТЯМ ПРОМЫШЛЕННОЙ ВЫСТАВКИ
«EXPO-RUSSIA VIETNAM 2015»
Л.ГЛЕБОВА**

От имени Федерального агентства по делам Содружества Независимых Государств, соотечественников, проживающих за рубежом, и по международному гуманитарному сотрудничеству приветствую участников, организаторов и гостей первой Российско-Вьетнамской промышленной выставки “EXPO-RUSSIA VIETNAM 2015”.

Развитие торгово-экономического сотрудничества между Российской Федерацией и Социалистической Республикой Вьетнам на сегодняшний день является одним из важных векторов внешней политики нашей страны. Убеждена, что участие в выставке «Expo-Russia Vietnam» позволит российским и вьетнамским предпринимателям не только познакомиться с продукцией и услугами экспонентов, но и установить личные контакты, что, несомненно, будет способствовать расширению партнерских и экономических отношений между деловыми кругами России и Вьетнама, а также позволит внести положительный вклад в развитие интеграционных процессов АТЭС.

Не сомневаюсь, что эта выставка станет востребованной площадкой для диалога экспертов, представителей власти и бизнеса по ключевым вопросам развития целого ряда отраслей промышленности.

Желаю всем плодотворной и содержательной работы, новых деловых контактов, ярких интересных идей и дальнейших успехов.

**THƯA CÁC QUÍ VỊ THÀNH VIÊN, NHÀ TỔ CHỨC
VÀ KHÁCH MỜI CỦA TRIỂN LÃM CÔNG NGHIỆP
“EXPO-RUSSIA VIETNAM 2015”
TRẦN TRỌNG,
L. GLEBOVA**

Thay mặt Cơ quan Liên bang Nga về công tác của Cộng đồng các quốc gia độc lập, kiều bào ở nước ngoài và hợp tác nhân đạo quốc tế, tôi nhiệt liệt chào mừng các thành viên tham gia, các nhà tổ chức và các vị khách mời của Triển lãm Công nghiệp Nga-Việt “EXPO-RUSSIA VIETNAM 2015” lần thứ I.

Hiện nay phát triển hợp tác kinh tế-thương mại giữa Liên bang Nga và nước CHXHCN Việt Nam là một trong những phương hướng quan trọng trong chính sách đối ngoại của đất nước chúng ta. Tôi tin chắc rằng việc tham gia Triển lãm «Expo-Russia Vietnam» sẽ tạo điều kiện cho các doanh nghiệp Nga và Việt Nam không chỉ có dịp làm quen với những hiện vật sản phẩm và dịch vụ trưng bày tại Triển lãm, mà còn nhận được cơ hội tốt đẹp để thiết lập các liên hệ trực tiếp, là yếu tố chắc chắn sẽ góp phần thúc đẩy mở rộng sự đối tác và quan hệ hợp tác kinh tế giữa giới kinh doanh của Nga và Việt Nam, cũng như cho phép góp phần tích cực vào phát triển các tiến trình liên kết hội nhập của APEC.

Không cần nghi ngờ gì, Triển lãm này sẽ trở thành sân giao lưu thích hợp và thuận tiện dành cho cuộc đối thoại của các chuyên gia, các đại diện chính quyền và doanh nghiệp theo những vấn đề quan trọng then chốt của hàng loạt ngành công nghiệp.

Tôi xin chúc tất cả quý vị đạt kết quả công việc tốt đẹp và phong phú, chúc cho những mối liên hệ kinh doanh bổ ích, những ý tưởng sáng tạo mới mẻ thú vị và nhiều thành công trong tương lai.

**PARTICIPANTS, ORGANIZERS AND GUESTS
OF INDUSTRIAL EXHIBITION «EXPO-RUSSIA VIETNAM 2015»
L. GLEBOVA**

On behalf of the Federal Agency for the Commonwealth of Independent States, Compatriots Living Abroad and International Humanitarian Cooperation I welcome participants, organizers and guests of the first Russian-Vietnamese industrial exhibition EXPO-RUSSIA VIETNAM 2015.

Fostering trade and economic cooperation between the Russian Federation and the Socialist Republic of Vietnam is our country's major foreign policy vector. It is my belief that participation in the Expo-Russia Vietnam will enable Russian and Vietnamese businesses to get a better insight into the products and services of exhibitors and to establish personal contacts, which will undoubtedly expand partner and economic relations between Russian and Vietnamese business circles and contribute further to integration within APEC.

There is no doubt that the exhibition will provide a ground for a dialogue among experts, governments, and businessmen on the key issues of development of certain industries.

I wish you fruitful and productive work, new business contacts, bright and interesting ideas and further success.

BARNAUL BOILER PLANT, LTD

Barnaul Boiler Plant (BKZ) Ltd. is a leading Russian manufacturing plant producing valve for power-generating industry. The Plant designs, produces and sells high quality pipeline valves at best price and on mutually rewarding terms.

Our products guarantee failure-free and stable operation of steam power industry:

- Valves for working mediums "steam-water" for power engineering (stop, control, pressure-relief & protecting valves) may be also used for oil products, non-aggressive fluids and gases; DN 10-1200, PN 0.1 – 50 MPa, Tmax=560°C.
- Pressure-reducing desuperheating stations (PRDS, DS, PRS and fast-response PRDS) for power-generating units and facilities designed for Poperating≥25 MPa, Tmax=560°C.
- Steam exhaust silencers are mounted after the main safety valves and designed for Poperating ≥25 MPa, Tmax=560°C.

INNTECHGROUP, LLC

LLC INNTECHGROUP — is the modern Russian enterprise that designs and manufactures the equipment for non-autoclaved aerated concrete. The company's staff is highly qualified, which allows us to develop and manufacture products corresponding to international quality standards. The company is constantly introducing new technologies, developing and testing new products, updating the machine park. Having our own manufacturing and warehouse space lets us optimize the terms and conditions of shipment of finished products to the end user. Our work also pays considerable attention to the technological support for supplied equipment. The technology of production of the non-autoclaved aerated concrete is constantly modified based on research and practical experience. Company experts perform a full range of activities: from production design to installation supervising and technology training. Nevertheless, we thoroughly provide individual approach to each client - the customer gets exactly what they need.

The main areas of work are:

- Design, manufacture and sale of production lines for the production of non-autoclaved aerated concrete blocks;
- Design, manufacture and sale of construction equipment (screw conveyors and conveyor belts, cement bags splitters, jib cranes, etc.);
- Technological services for the production of non-autoclaved aerated concrete blocks (start of production, consultation, adjustments of existing formulations of aerated concrete mixture and the development of new ones);
- Supply of chemical components for the production of non-autoclaved aerated concrete (aluminum powder, hardening accelerators, etc.);
- Sale of instrumentation for laboratories in the production of non-autoclaved aerated concrete blocks.

LECRA-SET, PLC

Lecra-Set, PLC was founded in 1995, and since then it has been dealing with recycling and packing of dry herbs, which grow in Altai region, and are famous for their ecological benefits for Russia and the whole world.

The main objective for us is to provide our partners with the highest quality products. During the whole production process, from the raw analysis to packaging, we carefully control all the steps.

We have our own, up-to-date warehouses, which let us meet all the raw storage requirements.

All herbs go through the physicochemical and microbiological research, in line with all regulations and specification. Our production is certified on the EAC basis.

We guarantee the highest quality to our partners, and willing to collaborate fruitfully on the long-term basis. We offer the flexible price policy, and full documentary support for both internal and international transactions.

We do keep in pace with time, and study the new standards of the natural herbs recycling and packing business, on the day-by-day basis, trying to improve the management system.

Currently, we produce approximately 217 kinds of herbs and herbal teas, in 320 forms of packing. The company is looking for the reliable partners on the South-Asian market, who understand our objectives and are willing to collaborate.

KOSMOS-NEFT-GAS

KOSMOS-NEFT-GAS HYDROCARBON PROCESSING PROJECT LLP

"Hydrocarbon Processing Project" carries out comprehensive designing of facilities for petrochemical, oil-processing industries, construction of oil and gas-condensate fields, processing of gases and gas condensates and complex treatment of oil and gas.

The Hydrocarbon Processing Project offers a whole range of services from a drawing board and to turn-key projects. Customer relations are built on the basis of utmost responsibility and trust.

Comprehensive designing of especially hazardous and technically complicated facilities, hazardous production facilities, unique capital construction projects:

- chemical, petrochemical production facilities;
- oil and gas processing facilities;
- oil and gas production facilities;
- storages of liquefied hydrocarbon gases, highly inflammable and combustible fluids;
- loading/unloading terminals for liquefied hydrocarbon gases, highly inflammable and combustible fluids;
- petroleum storage depots;
- multifunctional production facilities.

KOSMOS-NEFT-GAS

KOSMOS-NEFT-GAS PRODUCTION COMPLEX LLP

For over 20 years KNG has been developing and increasing its production volumes and to date more than 40 new, high quality products have been created.

Research and development works are performed to develop process equipment for oil and gas and nuclear power industries. Trial, low volume and serial production of:

- air and gas heaters;
- flare units;
- automatic flare ignition complexes;
- burners;
- control systems;
- active lightning protection systems;
- gas treatment systems;
- contactless torque and power measuring systems;
- gas production monitoring and control cabinets;
- chokes etc.

"Turn key" equipment supply and installation. Warranty and post warranty servicing.

The production complex consists of a wide range of manufacturing capabilities. These include a tool-and-die shop, welding, fabrication, machining and assembly shops, cooling chambers, furnaces for heat treatments and painting equipment. Furthermore there is a test system that includes a laboratory and facilities to determine mechanical properties of a product and assess its quality.

NEXT TRADE LLP

NEXT TRADE has been active in the market since 1999.

The company manufactures control and isolation valves for oil and gas industry as well as a customized gas production equipment to operate at 70 Mpa and H₂S/CO₂ content upto 25% of total mass.

Product overview:

- HT-PK control valves Dn 50-500 mm Pn 10,0-42,0 MPa
- antisurge valves;
- HT-3K wedge type gate valves Dn 15-50mm Pn 10,0-70 MPa
- single and double seal needle valves for upto 105 MPa;
- welded flanges, blind, instrumentation upto 10000 PSI;
- metal gaskets for flange sealing (all types);
- process fittings from M10 to M48;
- nickel-chromium X-tree fasteners from 3/4" to 1 3/4", from M19 to M48;
- inch fasteners as per ASME B.1.1;
- piston travel mechanical sensors (flanged and welded);
- spools.

NEXT TRADE also designs, manufactures and repairs a non-standard equipment based on specimens, drawings and specifications of a customer as well as per Russian state standards, API and ANSI, K1 trough K3.

INNOVATIVE TECHNOLOGIES, LLC

The company Innovative Technologies, LLC develops, manufactures and introduces high-tech materials and solutions into civil engineering and industry to protect constructions and assure people comfort and safety. The main aims of the manufactured materials are heat insulation, waterproofing, protection of constructions against mechanical and chemical effect, fire protection, protection of metal against corrosion, and to improve indoor climate.

All manufactured materials are easy in application and they are intended to solve listed problems. All materials are compatible with each other and they can be combined to protect constructions and buildings.

Producing our materials, we use raw components supplied by the world leaders of the chemistry industry. Incoming raw materials and manufactured materials are always under control. The manufacturing of the materials is based on the up-to-date equipment.

Our own laboratory allows us to control the raw materials and coating quality and develop new kinds of materials and coatings.

Moreover, Innovative Technologies, LLC provides customers with both general and nonstandard, specific solutions intended to specific conditions and problems. In many cases, these nonstandard solutions result the basis for mass production of the offered system.

THE UNION OF CHINESE ENTREPRENEURS IN RUSSIA

The Union of Chinese Entrepreneurs in Russia was founded on April, 15, 2006, under the approval of Ministry of Commerce of the People's Republic of China. Its mission is to enhance and strengthen ties and cooperation between Chinese enterprises, to inform its participants about regulatory policy in different spheres of activity, to provide consulting and legal services, to deepen the dialogue between Chinese enterprises and Russian authorities and business circles, to respond to the wishes and requirements of The Union's participants, to protect their legal rights, to promote the development of Russian-Chinese economic cooperation.

At the present time, The Union's organizational structure consists of one chairman, two vice chairmen, twelve permanent directors and more than 4000 ordinary members. Soon after its establishment, The Union has built solid business relations with federal authorities and Moscow government. These relations serve as a solid base for protecting legal rights of its participants.

KAZAN FEDERAL UNIVERSITY

Founded in 1804, Kazan University is the second oldest classic university in the Russian Federation. An internationally acknowledged center of academic excellence, it is routinely listed among top 15 institutions of higher education in the country.

In October, 2009 the University received the high federal status. This became the logical continuation of the 210-year history of the development of Kazan University. KFU is a bright example of a classical university – source of fundamental knowledge and constant development.

The main center of higher education for a vast region, KFU today employs more than 3,200 faculty members and trains over 47,000 students (of them about 30,000 students in Kazan campus) who follow over 300 undergraduate and post-graduate degree programs.

Kazan University has been training international students since 1977. In these years more than a thousand graduates received KFU diplomas. At the moment over 1500 international students from more than 90 countries follow academic programs of the University.

Study programs on the basis of 17 institutes, 1 faculty, 2 high schools and 3 branches in nearest cities embrace the following areas:

- Physics and Mathematics
- Natural Sciences
- Medicine
- Humanities
- Social Sciences
- Education and Pedagogics
- Culture and Art
- Economics and Management
- Service Sector
- Geodesy and Land Utilization
- Geology, Exploration and Development of Mineral Resources
- Automation and Control
- Computer Science and Computer Engineering
- Safety of activities, environmental engineering and environmental protection.

VIETNAM – RUSSIA JOINT VENTURE BANK

VRB was established on the co-operation between two leading banks in Vietnam and Russian Federation – Bank for Investment & Development of Vietnam (BIDV) and VTB (Russian Commercial Bank), and 50-50 contributing capital from each party. We serve as the financial bridge between two economies of Vietnam and Russia Federation.

When Free Trade Agreement (FTA) between Vietnam and European Economy Union was signed, fully grasp our mission, we are implementing the following key tasks:

- Actively support Vietnamese enterprises especially in production, exporting and importing companies, small and medium enterprises;
- Connect the economies by supporting companies who existing and future set up business relationships with Russian, Belarus, Kazakhstan, and SNG – markets where VRB has the competitive edge.
- Serve for key projects between Vietnam and Russia Federation.

With our modern technologies, a variety of products and services, our networks at main cities of Vietnam and huge networks from two parent banks, VRB believes that we can satisfy financial needs of Customers including deposit, international settlement, bilateral payment between Vietnam and Russia Federation, credit granting, wire transfer, guarantee, opening L/C, etc. in the fastest, most convenient manner to save cost.

Specifically, VRB is providing tailor-made packages for exporting-importing enterprises via bilateral payment between Vietnam and Russia Federation. Our product packages will support production – trading – payments for exporting-importing customers who have direct business with Russia Federation with preferential fees, service charges, and interest rates.

VRB – Connecting successes for development.

MCT SHIPPING SERVICE LTD

"MCT Shipping Service", registered in 1991, is one of the eldest agency and forwarding company in Russia, who offered "door-to-door" delivery in sea containers via St. Petersburg.

- Moscow Branch was opened in 1993.
- OY MCT Shipping Finland was set up in 1995 in Helsinki, Finland.
- Vladivostok Branch was set up in 2007.
- MCT Shipping Barcelona S.L. was opened in April, 2012
- Total staff about 100 persons.
- Member of Russian International Forwarding Association.
- ISO 9001:2000 Certificate as from 2004.
- We handle more than 18 000 TEU annually

Containerized, ro-ro and breakbulk shipments to/from Russia and CIS.

Forwarding service in the main Russian ports and inland transportation within Russia and CIS.

Custom clearance service both for export and import shipments, foreign trade agency.

GROUP OF COMPANIES
«OPTICENERGO»

OPTICENERGO

Our company OPTICENERGO is a large Russian corporate group including 5 companies of industrial production. We are kindly glad to supply:

- All types of Fiber-Optic Cables and Optical Ground Wire Cables (OPGW);
- Aluminum-Clad Steel Wire;
- A wide range of Power Cables (0.66, 1 and 3 kV) including flame-retardant, low smoke and gas emission (LS), fire resistant (FRLS), halogen-free (HF, FRHF), in cold-resistant performance;
- Self-supporting insulated and protected overhead wires; heat-resistant uninsulated wires;
- Aluminum Alloy Rod;
- Helical Fittings for electrical and communication overhead lines;
- Polyolefin shrink film and stretch-film.

The main aim of Opticenergo Group activity is manufacturing of up-to-date products. All the factories are equipped with the most modern manufacturing machines and their products correspond to high customers requirements and sometimes appoint these requirements in the market.

Benza®

ZAO PENZASPECAVTOMASH

ZAO "Penzaspecavtomash" is a production company which produces a range of gas stations, container and portable filling stations under own trademark Benza. Our plant has been working since 1997. The reservoirs are made from steel with wall thickness from 3 to 6 mm. It's mounted with combined filling port (function "fuel draining", "reservoir service"), breathing system, protection system against unsanctioned fuel discharge and control system of insulation space. Fuel dispensing equipment is designed for capacity from 40 to 500 l/min and power - 12, 24, 220, 380 V. The volume is from 1m³ to 60 m³. Mobile filling station for commercial or interfarm usage can be completed with automatic system of the fuel discharge by chip keys and cards. With the help of this system you can consolidate a few filling stations into one unified network and control every refueling 24 hours a day.

PROFESSIONAL PROFESSIONAL LLC

Professional LLC is Russia's leading manufacturer of mining and construction equipment attachments.

The main products of the company are:

- buckets and shovels for construction and mining machines;
- buckets for wheel loaders;
- buckets for LHD's (underground mining machines);
- blades for dozers and graders;
- rippers, augers, pallet forks;
- sales of components and spare parts and etc.

The total area of the factory is 80 000 sq m. Number of the personnel – 650 people.

The company annually manufactures and sells over 1 500 units of buckets with the capacity from 0,01m³ to 40m³. And the volume of sales and production keeps increasing year by year.

Mining buckets made by "Professional" are manufactured of heavy duty and wear-resistant steels produced in the RF and Germany with observance of all the models of treatment and welding, which is a warranty of high reliability and perfect wear resistance.

Buckets are equipped with the best systems of spare parts from world leading manufacturers of ESCO, Hensley, MTG and lining elements from Overlay.

The enterprise is equipped with up-to-date and high technology equipment.

Goods sales geography: CIS, Mongolia, Indonesia, USA, Republic of South Africa, Zambia, Chili, Philippines and others.

PROTON JSC

JSC «Proton» has been successfully working on the market since 1972. The company is certified to the international quality management system ISO 9001:2008 and currently is leading manufacturer of optoelectronics and LED lighting in Russia. Advanced equipment and high-qualified staff provide the opportunity to implement the whole manufacturing cycle from chips to finished devices.

Two major manufacturing units:

- “Optron” – chips on Si and SOI structures, optocouplers and solid-state relays. “LED” – LEDs, LED luminaires, LED traffic lights, LED obstruction lights.
- JSC «Proton» provides full-scale lighting of exterior objects: streets, sidewalks, undercrossings, platforms, highways, industrial territories, parking lots, etc. and interior objects: offices, industrial premises, warehouses, halls, housing and utility infrastructure.

The company production is successfully used in many regions of Russia and exported to countries all over the world.

ROSHIMZASCHITA

For 57 years "ROSHIMZASCHITA" has been well known in the field of development and production of personal self-contained respiratory protective means from dangerous chemical factors for civil population, power structures, personnel at industrial enterprises and collective means of air regeneration in closed spaces.

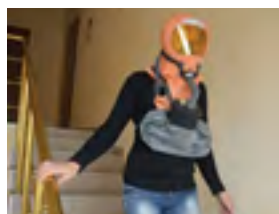

Mine-rescuer teams, Ministry of Extreme Conditions subunits, fire brigades, Ministry of Railways personnel, municipal services, hotels, mine personnel, power enterprises personnel are supplied with our self-rescuers. Air regenerators are used at atomic stations, control points and civil defense shelters.

The air regenerator RV-150 is designed for maintaining preset oxygen and carbon dioxide parameters of air atmosphere in sealed places excluding the possibility of air combustion from the atmosphere.

ROSHIMZASCHITA produces a range of self-rescuers (SHSS-T with air tightness indicator, SHSS-TM, SHS-30) designed for miners respiratory protection during incidents.

ROSHIMZASCHITA manufactures the self-contained self-rescuers SPI-20 and SPI-50 designed for emergency protection of visual and respiratory organs when escaping at fires from high-rise buildings, hotels, at accidents on all kinds of transport and metro.

RUSELF — RECYCLING

«RUSELF Recycling» LLC is a startup project developing the innovative technologies in the field of metallurgy of aluminum and non-ferrous metals. The company offers know-how technology for aluminum salt slag (wastes of aluminum industry) recycling to produce aluminum sulfate and potassium and sodium salts. At this time there is no efficient technology of complex processing of salt slag. The wastes of aluminum production are disposed of in landfills or at best, can be recycled in the European plant that is expensive for wastes producers. Storage of wastes is dangerous for population and natural resources. A large amount of slag, stored in landfills for many years, can cause the environmental disaster. The new technology provides a possibility of processing of all salt slag, already buried in landfills that will improve the ecological situation in areas of aluminum smelters location. The unique technology allows producing aluminum sulfate, the commercial product, using cheap raw material - wastes of aluminum industry, instead of expensive aluminum hydroxide. Aluminum sulfate is used as coagulant for water purification for drinking and industrial purposes, wastewater treatment. All harmful substances and contaminants, consisted in water, are neutralized by contact with aluminum sulfate and fall down to the bottom as sludge. The cost of production of aluminum sulfate by new technology is 2 times less than cost of production using traditional technology in existing companies. Therefore, we can offer a customer the high quality product by competitive price.

STROYMASH, JSC

Piling rig for construction foundation
by JSC Stroydormash, Russia

Exploration drilling rig URB-41

Diesel pile hammer
by JSC Stroydash, Russia

STROYDORMASH, JSC

JSC Stroydash and JSC Stroydormash are the leading Russian manufacturers of drilling and pile driving equipment, that is used

1. For foundation construction of precast and cast-in-situ pile:

- diesel pile hammers with ram 0,6-5 t,
- pile driving masts and pile drivers,
- drilling masts,
- rotary heads on excavator for pre-boring pile,
- drilling rigs for screwing pile mounted on truck,
- rotary drilling (piling) rigs mounted on truck or track of drilling depth 40 meters and boring diameter to 1800 mm by auger or kelly-bar.

2. For power lines installation and geological explorations:

- pole hole drilling rigs for electricity poles installation of low voltage lines, 3-5 meters depth and hole diameter 800 mm,
- geological exploration and water well drilling rigs to 300 meter depth drilling mounted on truck.

We are working since the beginning of the forties of the 20th century.

Both manufacturers take market share over 50% in Russia. 90 % of distribution power lines of 0.4 – 10 kV in USSR and modern Russia was built using our rigs.

The main consumers of today are the enterprises of energy, construction and oil and gas industries in Russia and the CIS.

FEDERAL STATE UNITARY ENTERPRISE “ALL-RUSSIA RESEARCH INSTITUTE OF AUTOMATICS”

Today FSUE VNIIA is a big research and production center.

The Institute structure includes well-equipped with state-of-the-art hardware subdivisions, such as:

- theoretical, R&D, and testing subdivisions;
- big computation center equipped with supercomputer, and distributed computer networks;
- industrial engineering and material science subdivisions;
- production workshops;
- cost accounting, planning and management services;
- support and auxiliary subdivisions.

Major areas of work include development and serial production of the following products:

- industrial control software & hardware for heat and nuclear power plants, and for other sophisticated facilities;
- pressure transducers and relays for nuclear and oil-and-gas companies;
- portable neutron generators and based on them equipment;
- portable X-ray generators;
- radiation monitors;
- equipment for detection of fast processes;
- arc-discharge protection devices for energetic facilities;
- electroblasting equipment;
- industrial seismic protection systems.

FSUE VNIIOKEANGEOLGIA

VNIIOkeangeologia was founded in 1948 and now it is the head research organization of the Ministry of Natural Resources and Environment of the Russian Federation and the Federal Agency for Subsoil Use of Russia in the field of geological study of the continental shelf, the Ocean, the Arctic and the Antarctic.

It is the head research organization of the Ministry of Natural Resources and Environment of the Russian Federation and the Federal Agency for Subsoil Use of Russia in the field of geological study of the continental shelf, the Ocean, the Arctic and the Antarctic.

VNIIOkeangeologia provides a wide range of services in the fields of geology, geophysics and geochemistry including offshore prospecting of hydrocarbon fields (oil, gas, gas hydrates), geological engineering, seismological researches and laboratory analyzes.

For the last 10 years VNIIOkeangeologia has been developing offshore surface geochemical exploration methodologies through cooperative programs with the oil industry. During this period VNIIOkeangeologia has performed various geological and geochemical surveys not only for the Ministry of natural resources and ecology of Russian Federation but as well for large Russian and International oil companies (including Gazprom, Rosneft, ExxonMobil and Vietgazprom). This activity has provided our team with unique experience in interpreting offshore surface geochemical data. During the last decade more than 40000 samples has been analyzed from the Arctic seas offshore Russia, South China Sea, and the Sea of Okhotsk.

LLC «ZOLOTAYA SEMECHKA»

Yug Rusi Group was established in 1992 by the Russian entrepreneur Sergei Kislov. Since that time Yug Rusi has worked its way up from a small firm engaged in supplies of flour to CIS countries to one of the most powerful agricultural holdings in Russia.

Ten oil production plants of Yug Rusi located in Russia (among them one of the largest plants in Europe – the Rostov oil extraction plant) and Kazakhstan manufacture such well-recognized brands as “Zolotaya Semechka”, “Avedov”, “Zlato”, “Milora”, “Khozyayushka”, “Leto”, etc. Their cumulative share makes over 30% in the Russian bottled vegetable oil market, and over 20% in the Kazakhstan one. Yug Rusi is a national leader in production and export of bottled vegetable oil.

Besides, the Company is engaged in the export of meal, fuel husk pellets and ranks among the major domestic grain exporters. Distribution system of Yug Rusi Group is one of the most developed in the country and comprises approx. 400 partners.

Yug Rusi Group comprises 19 agricultural enterprises in the Rostov region, Krasnodar territory and Volgograd region with the total area of farmlands nearly 200 thousand hectares.

Logistics infrastructure of Yug Rusi includes a branched network of 27 elevators, commercial vehicles fleet, sea port terminals situated on the Don River and in water area of the Azov Sea and near the Kerch Strait.

Yug Rusi bakery plant – the largest enterprise of the bread-making industry in the Rostov region. Flour produced by milling complexes of Yug Rusi is intended for free sale and use in making bakery products at the Yug Rusi bakery plant.

OJSC POWER MACHINES

Power Machines OJSC is the largest power plant engineering company in Russia with an international experience in the field of design, manufacture and complete delivery of the equipment for thermal, nuclear, hydraulic and gas – turbine power plants.

Power Machines OJSC creates efficient integrated solutions for the world's power industry basing on the 150 year experience of the company's production assets and implementing the latest achievements.

Power Machines OJSC is

- over 300,000 MW of installed capacity in 57 countries;
- the fourth place in the world by the volume of equipment installed;
- the largest design and engineering centre in the field of power plant engineering in Russia;
- full range of main power equipment complying with international standards;
- system of continuous improvement of all business processes of the company;
- over 20,000 employees.

BEDFORD GROUP LLC

BEDFORD GROUP – your private logistic partner since 1995.

Russian company specializes in transportations of the industrial project cargo, including heavy-lift, over-sized and long equipment by all means of transport. The company offers freight-forwarding services in Russian Federation and worldwide in the frames of construction / modernization projects of energy, oil and gas (upstream / downstream), petrochemical, construction, mining and other industries.

Many years' experience enables **BEDFORD GROUP** to plan and execute the most challenging transport-logistics tasks, acting as the general logistics operator for the client, offering complete service on a «turn-key» basis. To meet the client's needs, beside transportation, cargo-handling and customs services, the company offers additional services, such as insurance, certification, signing and execution of the delivery contracts and more.

BEDFORD GROUP LLC is a certified representative of the Federal Customs Services of the Russian Federation, member of the Freight Forwarders Association of the Russian Federation (FAR), member of the Baltic and International Maritime Conference (BIMCO), International Federation of Freight Forwarders Associations (FIATA). The company certified according to the requirements for a quality management system of ISO 9001:2008.

The company practices the individual approach to every client, being the reliable and confided partner of the client, which protects first and foremost the client's aims and interests.
